The battery charge indicator is situated on the side for permanent visibility.

Thanks to the clever angle head, screws can be tightened easily, even in confined spaces.

Applications

- Drilling
- Driving
- Fitting and assembly

Advantages

- With a bit holder on the top of the machine, the desired bit is always to hand.
- > Spindle with 1/4" chuck directly accommodates bits and push-fit accessories.
- Bright LEDs illuminate a large working area.
- Thanks to the practical belt clip, the A 10 M is always within reach. It can be attached to the left or right of the machine without any tools.

Description

Small format, big performance – the compact A 10 M drill driver raises eyebrows in its performance class thanks to exceptional output and clever functions. This handy, multi-talented machine is the ideal choice for all internal finishing tasks.

Tool-free quick-release system for speed and efficiency when alternating between drilling and driving.

The battery PowerTanks feature process-controlled technology.

All the relevant factors, including the individual cell state, air cooling and cell temperature are monitored. In addition, the floating battery cells are protected against mechanical influences.
