

Cross-Cutting System KSS 50 cc - GB 230 V

ref.no.: 918921

EAN: 4032689214177

boxed

Technical data

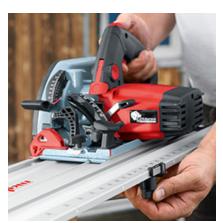

Cutting depth at 0° with guide track	0 - 2 1/6 Inch
Cutting depth 45° with track	0 - 1 5/8 Inch
Cutting depth at 0 □° without guide track	0 - 2 5/16 Inch
Cutting depth 45° without guide track	0 - 1 7/8 Inch
Tilt range	0 – 45 °
Cutting length	16 Inch
Angle cuts	-60 – +60 °
Nominal No. of strokes – no load	5700 1/min
Nominal power input	1.7 hp
Weight with guide rail	11.9 lbs
Universal motor	230 V / 50 Hz

Delivery specification

- 1 Allen key 5 mm; Ref. No. 093034
- 1 Guide track M, max. cutting length 400 mm (15 3/4 in.); Ref. No. 208170
- 1 Mains cable 4 m GB 230 V; Ref. No. 087802

Examples for usage

The highly graduated scale permits very precise angle setting.

The fixed and adjustable stops on the underside of the rail allow the system to be used for angle cuts from +60° to -60°.

Thanks to the generously-sized angle scale, miter cuts always ensure a perfect fit – as seen here with exterior cladding.

One-stop solution: with the cross-cutting system, the machine is permanently attached to the guide track.

Applications

- Cross cuts with guide
- Rip cuts and cross-cutting
- Plunge cuts and recesses
- ▶ Compatible materials include solid wood, board materials, insulating materials, doors, worktops and internal finishing and renovation materials

Advantages

- ▶ Thanks to the unique tilting system, a cutting depth of 42 mm (including rail) is always available in the angle range from 0° to 45°.
- ▶ The machine can be removed from the cross-cut track at the single press of a button, allowing its use for the full range of applications offered by the K 55 cc.
- The rubberized underside ensures a good grip on the work and avoids damage to the surface.

Description

With their low weight and cutting depths of up to 52 mm on the track, MAFELL's new, powerful cross-cutting systems are making a big impact when it comes to interior work, for example.

Once the cut has been executed, the saw automatically returns to the starting position. The maximum cutting length, exploiting the full cutting depth, is 407 mm.

It is no longer necessary to unscrew the riving knife – the FLIPPKEIL offers you optimum user-friendliness and safety when plunge cutting.

Accessories / Tools

Guide track M max. cutting length 400 mm (15 3/4 in.)

Guide rail F 160 1.6 m (5.2 ft) long

Parallel guide fence K55-PA

Guide rail F 310 3,1 m (10,2 ft) long

> TCT saw blade 168 x 1,2/1,8 x 20 mm, Z 16, WZ, for ripping in wood

TCT saw blade 168 x 1,2/1,8 x 20 mm, Z 24, WZ, for universal use with wood

TCT saw blade 168 x 1,2/1,8 x 20 mm, Z 32, WZ, for fine sawing in wood

Guide pocket set 2 x F 160 + F-VS + 2 x F-SZ 180 MM + 1 guide pocket

Guide pocket set F 80 + F 160 + F-WA + F-VS + 2 x F-SZ 180MM + Guide pocket

Non-slip profile F-HP 6,8 M 6.8 m (22.3 ft.) long

Lever clamp F-SZ 180MM 2 pieces, for fixing guide rail to workpiece

Flexible hose FXS-L up to 3,2 m (10.6 ft) long

Guide track ML max. cutting length 770 mm (30 5/16 in.)

Roller edge guide MF-UA

Connecting piece F-VS for joining two guide rails

Dust bag

Guide pocket F 160 for guide rails up to 1,6 m

Angle fence F-WA

TCT saw blade 168 x 1,2/1,8 x 20 mm, Z 56, WZ, for cross-cutting wood

End cap F-EK 2 pieces

Splinter guard F-SS 3,4M 3.4 m (11.2 ft.) long

Suction clamping system Aeroxfix F-AF 1 with 1,3 m rail, adapters for above and underneath rail, flexible hose
