Pull-Push Saw ERIKA 70 - GB 230 V

ref.no.: 972021

EAN: 4032689213415

Technical data

Cutting height	- 1/16 - 2 13/16 Inch
Cutting height at 45°	- 1/16 - 1 15/16 Inch
Tilt range	-3 - 48 °
Cutting length	13 Inch
Table top dimensions	20 11/16 x 32 3/16 Inch
Working height without stand	16 5/16 Inch
Working height with stand	35 1/16 Inch
Nominal No. of strokes – no load	2.050 – 4.300 1/min
Nominal power input	3.0 hp
Extraction connection diameter	2 5/16 Inch
Weight (with universal guide fence)	82 lbs
Cutting speed	ft/s
Universal motor	230 V / 50 Hz

Delivery specification

1 TCT saw blade 225 x 1.8/2.5 x 30 mm (8 7/8 in.), AT, 32 teeth; Ref. No. 092460
1 Universal guide fence with fence extension; Ref. No. 201611
1 Push stick; Ref. No. 034901
1 Allen key 6 mm; Ref. No. 093081

Examples for usage

The sensor-controlled working light provides the best view of the cut. The partially transparent protective hood completely covers the saw blade and thus provides for greater safety.

Assembling and disassembling the ERIKA are simple one-man jobs. You can unfold the built-in fold-away support within seconds and without tools.

Unevenness of the surface can be levelled out with the level control simply by pressing down with the foot.

Precise and tear-free – this describes the cuts of ERIKA .

The ERIKA has a circumferential dovetail profile to which fences and optional accessories can be attached in a convenient and sturdy manner.

The infinitely variable speed adjustment for individual requirements and applications is ideally placed on the front panel. This allows the speed to be conveniently adjusted to different materials and applications.

Applications

- Cross and rip cuts
- Circular saw bench functionality
- Bevel cuts up to 48°
- Compatible materials include solid wood, board materials, parquet and laminate flooring, aluminum profiles and plastics

Advantages

- New type of suction channel revolutionises extraction – for less dust when working.
- Lightest pull-push saw in its class – for quick and easy transportation.
- Adjustable speed – for individual processing of wood, plastics or aluminum profiles.
- With voltage loss switch for protection against uncontrolled reconnection after a power interruption.

Description

As the world's first pull-push saw, the ERIKA has become the epitome of mobile sawing since its introduction. After almost 40 years of experience, the current generation is now endowed with everything that users expect from a modern pull-push saw.

The built-in /Quickstand\\ sets the ERIKA on 4 stable aluminium legs within seconds. Protective rubber stoppers on the feet also prevent slipping or knocking.

The unique suction channel concentrates the sawdust and extracts it to the rear. Thanks to this new development, your dust extractor is used even more effectively. The result: clean work on a clean construction site! Operation of the ERIKA leaves no questions unanswered. Clearly designed operating elements are all logically arranged on the front of the machine!

Thanks to the E-control electronic system and the corresponding MAFELL original saw blade, it is possible to process other materials in addition to wood, such as plastics or aluminium profiles.

Further advantages of the ERIKA 70: Extremely stable table profile, tilt range from -3° to 48°, lowerable riving knife an maximum cutting length of 340 mm (13 3/8 inch).

Accessories / Tools

Universal guide fence
with fence extension

Sliding table
maximum cutting length 905 mm (35 5/8 in.)

Connecting piece
for connecting two fence guide extensions

Extension table ERIKA 70
requires 2 support/mounting rails

Drop stop

Chip collecting system Cleanbox
Starter-Set

TCT saw blade
225 x 1.8/2.5 x 30 mm (8 7/8 in.), AT, 32 teeth, for universal use

TCT saw blade
225 x 1.8/2.5 x 30 mm (8 7/8 in.), FT/TT, 68 teeth, for plastic and aluminium profiles

Multi-purpose guide fence MFA
with angle locking

Fence guide extension
1000 mm (39 3/8 in.) long, incl. drop stop

Telescopic rod
with sheet metal support, 960 mm (37 13/16 in.)

Supporting rail
1000 mm (39 3/8 in.), 1 piece

Extension kit with wheels

Chip collecting system Cleanbox
5 pieces

TCT saw blade
225 x 1.8/2.5 x 30 mm (8 7/8 in.), AT, 48 teeth, for fine cuts

Clamping device
